Diamond Vision
41 West Putnam Avenue
Greenwich CT 06830

My experience with Diamond Vision was great.

Everything was great from the first visit with the consultant. I was amazed at how thorough an exam I was given. All my questions were answered even before I got to ask them. Everyone at Diamond Vision is knowledgeable and patient.

I had the intralase done in January and I am so happy I finally did it. I recommend having lasik done. My sister had lasik done the very next day and I got to watch. It was amazing. My biggest problems were a lot of dryness and sensitivity to light. The dryness is gone and the sensitivity is almost gone.

I want to thank everyone at Diamond Vision. I definitely recommend them.

Aline
