

The Diamond Vision lasik procedure was just an amazing experience. From my first visit which determined if I qualified for the lasik procedure until my follow up examination at the Paramus NJ center, I was treated With extreme courtesy and professionalism.

My vision has improved to better than 20/20. To anyone considering this procedure, my response would be that it's a "No Brainer."

Thank you for giving me this wonderful gift of vision more than I could have imagined.

Sincerely
Anthony J. Felix, Jr
