

Christine  
Diamond Vision Testimonial

On October 25, 2005 I had Lasik Eye Surgery done on both my eyes in the Paramus, New Jersey Diamond Vision office. From my first visit for the free consultation to my last post op visit, I was treated with warmth and kindness. The entire staff was professional, knowledgeable and helpful. Ralph Perez, my Lasik Consultant was wonderful. Barbara Seidman, the receptionist, always had a smile and was willing and happy to help me with everything I asked of her. Dr. Howard Kornstein was my surgeon and kept me calm and informed as he performed the surgery. His assistant seemed to really work well with him.

I met with Dr. Ansari and was disappointed when he left the practice. I met several times with Dr. Deborah Dimeglio and couldn't ask for a better Optometrist! I am so happy with the results I wish I had the surgery sooner. I've been told several times that I look younger. I can now so appreciate small things like applying makeup and shaving in the shower! I highly recommend Diamond Vision and wish you continued success in the future! Happy Tenth Anniversary!  
Thank you so much!
